Sir,

With reference to your docket No 10504

dated 10th April 1906 re the Sandal Koti building at Chikmagalur, I have the honour to inform you that the whole of the Sandal Koti, including the part which the Conservator of Forests proposes to give and also the part marked as open timber yard, is wanted by the Education Department, the former for the location of an Industrial School and the latter for a school farm. I believe a portion of the new Sandal Koti can be used as

a

timber yard and if the whole Kote is given over to the Education Department, the Forest Department is not likely to be inconvenienced ~~to~~ for the payment demanded by the Forest Department. I submit that the Kote is a public building erected from public funds, and it does not seem to be necessary that Government should pay for it through the Education Department, and receive the payment through the Forest Department. If however the Kote must be paid for by the Education Department, I request that Government may be pardonenough to sanction as a special case the sum demanded by the Forest Department from the provision for Civil Buildings in the Public Works Department Budget. His No 1°129/5°62 dated 23rd June 1906

With reference to the above I have the honour to state that the portion of the old Sandalfoti building at Chittmagalur now offered by the Forest Department for the use of the Educational Department is not at all sufficient for the accommodation of the proposed Agricultural Farm and the Industrial School. The portion marked in red ink in the sketch map herewith returned contains

four dilapidated rooms, all in different stages of deterioration and one or two in a very dangerous condition, harbouring serpents and other insects. These have to be knocked down and levelled to the ground before this plot of ground can be of any service to the Educational Department for the required purpose Unless the portion marked as "Timber yard" is also given, no work in connection with the Agricultural Farm can be attempted

In and around the new Sandal Store building which is recently constructed and which is in the occupation of the Forest Department there is enough of space available for storing sandalwood now found in the "Timber yard" If the Department can be prevailed upon to remove the same to the premises of the new building the "Timber yard" too can be vacated in about a month or so

SUBJECT

But the Conservator of Forests states that the open yard behind the old Sandalkoti is required by the Forest Deptt for the Storage of Rough sandalwood and timber and that he has no objection to the transfer of the old Kote building alone to the Edn Deptt on a fair Valuation The Dpt desires to have the portion proposed to be assigned by the Forest Deptt but states that if it will suffice only for the purpose of an Indl School and adds that the idea of opening a Demonstration Farm will have to be dropped for the present. In these circumstances Govt are pleased to direct that the old Sandalkoti with the exception of the open yard now used for the storage of timber be handed over to the Edn Deptt for opening an Indl School.
